A Merry Christmas

**Brings JOYS and TOYS
For GIRLS and BOYS.**

Prices on Toys were never lower
Than those you find at **ROSSELL'S Store.**

From your purse take off the lid—
Just spend a little for the kid.

You'll never know what lots of joy
A gift will give your girl and boy.

Forget the prices on cattle and grain—
This chance may perhaps not come again.

24-hour Telephone Service

For several years past, petitions had been going in to the Telephone Department from this town and district, praying for an extension of the phone service from its present limited capacity to the 24-hour system.

Several months ago, officials at the Edmonton end started operations to put this into effect—the first move being to send circulars to the present users, requesting them to give expression to their wishes on the matter.

A ready response was asked, and self-addressed stamped envelopes were enclosed, to expedite matters.

It was the expectation of the Department's officials to have the system in operation by December 1st, but on that date not fifty per cent of the expected replies had been received by the department in Edmonton.

The expected increase in the rate meant only about an extra dollar a month, and the Department thought that this small increase in the toll would appeal to those who wished the found-the-clock convenience, and was much surprised at the lack of enthusiasm shown.

Body of Benbow Found.

The missing hired man from the Brown farm, near Graminia, a report of which appeared in our last issue, proved to be Jean Denbow. Constable Greenough of Stony Plain headed the search party, which was accompanied by Burns, the Police

Inga M. D. Meets.

Inga councillors held another meeting at Carvel on Friday last. After several lively tilts between the councillors and the waste of an hour's time, the minutes of the previous meeting were read and adopted. Several deputations were presented and an animated discussion took place when the matter of the deferred pay sheets in councillor Shaw's Division came up.

Assemblyman Washburn, President Landy and Secretary Robertson of the Agricultural Society were a deputation attending the last meeting of Inga councillors, asking that the last grant of £240 to the fair be paid. The matter was promised consideration.

bloodhound. Denbow was shot thru the chest, and was lying on his back with the muzzle of the .22 pointing toward him. Nearby was a rabbit which he had shot, and it is surmised that, after he had shot this rabbit, deceased had reloaded his gun and started up a small bank after a second rabbit, when the gun went off, sending him backwards, down the bank.

The finding of the body is considered a good piece of work on the part of the police dog.

Denbow had come up about a year ago from Montreal, where he has a brother living at 99 Wurtell street. This relative was communicated with by the police.

Croucher Oatway was on the scene, but, on investigation, did not consider an inquest necessary.

LUCKY HE GOT TANLAC SAYS T. B. DRAPER

"Talking about things that help people, this Tanlac has done me more good than anything else I have ever come across. There's no doubt in my mind but what it's the finest medicine money can buy," is the emphatic statement made recently by Thomas B. Draper, 221 Second Ave., West, Calgary, Alberta. Mr. Draper is an old Imperial Army man. He saw many years service in India and Egypt, and also served in the Indian campaign of 1882.

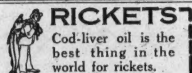

"For a year past I have felt rundown all over. My appetite deserted me and the little I did eat seemed to do me no good. I felt so weak and worn-out it was an effort for me to get up from my chair. I couldn't sleep to do any good and got up mornings just as tired as when I went to bed at night. I lost weight continually and had commenced to worry over my condition.

"It was certainly lucky for me that I listened to my friends and got Tanlac, for I have gained several pounds in weight and have not felt so well in a long time. What it takes to make a man eat good, sleep good and feel like working Tanlac certainly has it."

Tanlac is sold by all good druggists.

Immortal Men Of Mons

German Tribute Paid to Original British Expeditionary Force
Speaking at the Royal United Services Institution, Earl Haig mentioned a tribute paid by Von Kluck to the original British Expeditionary Force—"The Army of Mons."

A British officer, visiting Berlin since the war, called on Von Kluck. As is the custom with officers of the Allied Armies of Occupation, the British officer held out his hand.

Von Kluck said: "Not before I have fulfilled a vow I made before the end of the war. It was that before I would shake hands with any British officer again I would say this to him—I am an old man. I started life in '66 against the Austrians, I fought in the '70 war, and have studied and talked about war all my life, holding high command before the war, but nothing I have ever read or seen or heard is compared to the achievements of the First Expeditionary Force sent out to help the French."

THE HALF-SPEED MAN

What It Means When You Feel Run-Down and Out of Sorts

You know what it means to feel "all out of sorts." Most people have felt this way at some time. Nerves out of order, irritable, languid, depressed. An aching head, appetite bad and digestion weak. Some people this condition comes and goes; with others it is chronic—they can't shake it off. It interferes with business, spoils recreation and robs life all its joys. These men and women are only able to work at half-speed. The trouble is caused by poor, watery blood. You can improve your condition today by taking Dr. Williams' Pink Pills. These pills enrich and stimulate the blood, strengthen the nerves and give you new vigor. Here is proof. Mr. William F. Bell, Cambridge, Ont., says:—"I have been recommending Dr. Williams' Pink Pills for a number of years, because of the benefit I got from their use. I was in a terribly rundown condition. I was scarcely able to do anything all winter. To make things worse I took the mumps and caught cold, and as a result was confined to bed for six weeks, part of the time in a terrible fever. Of course I was deteriorating, but instead of getting better I was growing weaker. At this time my father-in-law urged me to try Dr. Williams' Pink Pills, but I had lost faith in all medicine and refused. However, he had such faith in them that he bought me six boxes, and of course I could not refuse to take them. Now I am glad I did not. I had not taken them long before I began to have faith in the pills myself. There was no doubt I was improving. Day by day my strength came back and I gained in weight from 115 to 146 pounds. Therefore I feel that I can not speak too highly of Dr. Williams' Pink Pills and I hope my experience will convince some other sufferer of the value of this medicine."

You can get these pills through any drug store or by mail. I will send you a box of six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Size Of Universe

Scientists Trying to Estimate Extent in Miles

Discussing the statement of Dr. H. Shapley, Director of Harvard University, that the limit of the universe is 300,000 light years away, Dominion observatory officials point out that a light year is 5,880,000,000,000 miles. The extent of the universe then, according to the Harvard astronomer's estimate, is 2,100,000,000,000,000 miles. By the limit of the universe, the distance it extends, not the time it may be expected to endure, is meant.

Nevada Mining Tooth Powder

Old Prospector Finds Peculiar Mineral in Desert Mountain

Nevada for years has been mining silver, copper and gold; but now it has turned to mining tooth powder. Twelve years ago, Mack Foster, an old "desert rat" and big game hunter, discovered Mt. Superdient, and found its peculiar mineral would take the tobacco stains off his teeth. Eventually Foster told a man named Fenwick about The Mountain. Fenwick's secretary, a western girl named Josephine Robinson, tried some of the material and found it most effective. Fenwick asked the claim and now he and his associates have hard work to keep ahead of orders.

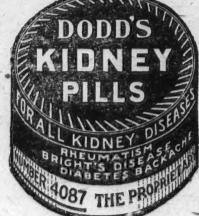

The material not only cleans teeth, but polishes silver, manicures nails, shines up optical goods, whitens shoes and makes a fine shampoo. Physicians are using it, too, for a surgical powder.

The mountain is out in the sage brush desert, about 30 miles from Tonopah.

Building Up Small Towns

Citizens Should Support the Place They Call Home

It is high time that all of us paid more attention to the building up of the little town and less to making the overgrown city larger. The little town is home—or should be. It needs our support, and we are the people who must give it life and power if it is to have either. The big city cares nothing for us. It will if it can pull our dollars away and lure our boys and girls into its whirlpool, but that is the only use it has for us. The little town needs us and we need it. All's corners may not make as large an end on the map as New York, but it really means more to us, and we ought to help make it something to be proud of. Why not get over the idea that the bright future of America lies in the great cities? It does not. The future which lies in the cities is showmen, smoked, dirty and unclean. The true future lies in the country and in the little towns. Buck them up and make them grow.—Rural New Yorker.

Settlers From States

In "keeping-with the programme to bring Canadians back" through special settlement efforts of colonization lots, the province of Quebec disposed of 220,000 acres to newcomers during the year ending June, 1922. In the 12 months 626 families of French-Canadian origin, consisting of 2,171 persons, returned to the home of their fathers from the New England States. Several thousand additional acres are already cleared for the same purpose and a system of inspection organized.

NOW DO MY WORK WITH EASE

Because Lydia E. Pinkham's Vegetable Compound Restored My Health

Hornell, N. Y.—"I was in bad health but didn't seem to be any one thing the matter with me. I was tired out all over and it was an effort for me to move. I was irritable and could not sleep at night and had trouble with my bowels and at my periods. It seemed that nearly everyone around me knew of my medicine and wanted me to try it. So at last I took Lydia E. Pinkham's Vegetable Compound Tablets and Lydia E. Pinkham's Food and Medicine and improved every day. I do all my own work now except the washing and do it with ease. I can accomplish as much in a day now as it would have taken me a week to do last winter and I try to get every one I know to take your medicine to build them up. You are welcome to use this letter as a testimonial if you like."—Mrs. CHAS. BAKER, 21 Spencer Ave., Hornell, N.Y.

In almost every neighborhood there are women who know of the value of Lydia E. Pinkham's Vegetable Compound. They know because they have taken it and have been helped. Why don't you give it a trial?

My hat had vanished my hairpins also, and my hair hung in a braid over my shoulder. Cupid stood a few feet away with an apologetic expression on his face that surely meant, "I know it was all my fault." Cupid, like Mr. Mills, is always a perfect gentleman. And Mr. Livingstone glared at us alternately. It was funny, and I began to laugh.

"I am glad that you find me amusing," said Mr. Livingstone stiffly.

And then I began to cry! Surely the strain of the last few months had weakened my brain.

In a moment Mr. Livingstone was beside me. "Elinor," he said gently, "are you, or are you not, engaged to that man in England?"

"I am not," I replied indignantly between sobs; "and even if I were, I don't see what right you have to ask personal questions."

"You don't, eh?"—this with a queer little laugh—"well, we'll see about that later. And in the meantime, if you have to cry you must do it more comfortably."

And now, after encouraging me so shamelessly, he says that I spoiled his second-best tie by sprinkling salt water all over it! Of course he has said other things too—a great many of them; but while eminently satisfactory to me, his conversation is not suitable for insertion in a well-conducted diary.

We had to tell our wonderful news to the Binghamtons, but until we hear from Father we shall not tell anyone else. Don and I wrote to Father at once, and Mr. Binghamton did also—awfully good of him, I thought. I have decided that I shall go home about the first of May, and Don will come for me at Christmas. Inside my ring is engraved, "May 20th, 19—." Fancy Don's remembering the exact date!

A Successful Man

Among the notable professional men of this country who achieved great success along strictly legitimate lines was Dr. E. W. Pierce. Devoting his attention to the specialty of women's diseases, he became a recognized authority in that line.

Over fifty years ago this noted physician gave to the world a Prescription which has never been equaled for the weaknesses of women. Dr. Pierce of Buffalo, N.Y., long since found out what is naturally best for women's diseases. He learned it all thru treating thousands of cases. The result of his studies was a medicine called Doctor Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening pains and for the many disorders common to women in all ages of life. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it in both tablet and fluid form.

Send 75c to Dr. Pierce's Drug Laboratory in Bridgeport, Conn. for trial package tablets.

I am just a little bit worried about Mary. Don has made it very plain that he flirted with her only because he felt that I had used him badly by concealing my engagement to another man. But did Mary go with him just for mischief, or did she care for him seriously? I wish I knew.

April 20th, 19—
Father has cabled his consent.
The End
XXVIII.

Bar R Ranch,
May 3rd, 19—.

The end of my diary begins to resemble Sarah Bernhardt's farewell tour. But as I never add a postscript to a letter, perhaps I may be allowed to add one to my diary.

Properly speaking, Mary is responsible for this addition. After I received Father's cable, I wrote to her and announced my engagement. Her reply came to-day, and as I could not do justice to it in an extract I shall paste it in my diary here! It forms a more fitting conclusion than anything I myself could write.

Winnipeg
April 27th, 19—.

"Dearest Elinor—
"When I saw your letter containing the marvelous news of your engagement I felt so happy that I wanted to hug someone, you or Uncle Don in preference. But there was no suitable victim within range, so I abducted the nearest small boy and took him to see the 'movies.' This small boy is perfectly adorable; he has two coloured curly hair, a turned-up nose, and an entrancing lisp. We had one swell time—that very vulgar expression is a quotation from the small boy's vote of thanks. I have cut out along.

Honestly, Elinor, I cannot tell you how glad I am that you and Uncle Don have at last acted in a sensible manner. As soon as I saw you together at the ranch I concluded that he was—well, not wholly indifferent to you. But you know, my dear, your predilection for Platonic friendship and poultry farming would discourage the boldest of men, so I thought that it was time for little Mary to take a hand in the game. Is that slang, or merely technical phraseology?

First of all, I tried flirting with Uncle Don, but that did not seem to trouble you in the least. It was very discouraging, and I was almost desheartened when suddenly it occurred to me that if I could make Uncle Don flirt with me it might bring you to your senses. So I called out the B's, and told him more or less true story about dear Arthur. Have you ever observed the line of Uncle Don's jaw when he isn't exactly pleased? Gee, I was scared! But I stood to my guns, and when he began to conceal his injured pride by devoting himself to me, I felt satisfied that I had followed the right line of action. You certainly did sit up and take notice, but—this for your consolation—Uncle Don never caught on; he thought that you were homesick! Men are simple creatures, even the best of them.

"However, towards the end of my visit I had many an anxious moment; and I vowed then that I would never again interfere in such a matter. Two or three times since I came home I have been on the point of writing to Uncle Don to tell him what I had done, but I couldn't very well tell him that you were breaking your heart because he wouldn't propose to you, could I? The next time I shall leave the matrimonial game to Cupid. I do not regret the proper course I followed though he is as a substitute for his more renowned namesake.

"If Uncle Don is not satisfied with my shoulder, please send him away now—I have something to tell you that is for your absolute good, and a soft spot to fall on, because you will probably faint; but you cannot be half as much surprised as I am myself.

"Since 8.45 p.m. on February 2nd I have been engaged to the Reverend Bernard Hartford! Don't laugh, please; it is not funny. To tell the honest cross-heart truth, I think it is rather a tragic occurrence. Just suppose I should disgrace him some time—by throwing spit water on the bishop, for instance! Or worse and worse, by flirting with the choir boys! We are going back to England, Elinor. Can you picture me with a London parish as background? We expect to be married early in September.

"No one will ever be able to say now that I cannot keep a secret. I almost told you about this when I was at the Bar R, but I was shy—though I don't suppose you will credit my shyness. Of course I was not really engaged then—just 'on probation,' as it were. But we wrote to each other twice a week, and you never suspected anything! That shows how much you were taken up with your own affairs.

Elinor, I am reforming; you would scarcely know me. I am very sweet and submissive, and I say 'yes sir' and 'no sir' to Mr. Hartford whenever he speaks to me. And every time I use slang I put five cents in the W.A. mite box—here's hoping the heathen appreciate my self-sacrifice. If it is not for the sake of the heathen that I make the sacrifice, however! I have the bishop in my mind's eye.

"Queer, ain't it, that Mr. Hartford never got married, 'n' him such a fine-looking man? I wish seriously of asking Mrs. Mills to be my matron-of-honour.

Yours for ever and ever,
"And then some."
"Mary Arnold."

How your opportunity to participate in these three cash prizes. We wish to put THE ATHLETIC GUIDE, our new Sporting Paper on the map and at once. It would take us months and months to reach our circulation objective by ordinary canvassing methods as we have decided to spend our money in a way whereby our own subscribers will gain an opportunity to participate in our expenditure which really makes our proposition a mutual one all the way round.

To participate in this subscription campaign you simply indicate on the coupon below whether in your estimation the HOME TEAM will score MORE, LESS or THE SAME NUMBER of goals than they scored in the corresponding game of last year, by placing an "X" in the column provided in the coupon. Prizes will be awarded to the subscriber who submits the second highest correct estimate and the third prize to the subscriber who submits the third highest. Prizes will be equally divided among subscribers whose estimates rank equally correct.

RULES

- (1) All entries must be made on coupons provided for that purpose.
- (2) Any coupon which has been altered or mutilated will be disqualified.
- (3) In event of a tie, or ties, prize will be divided equally between those tying, but should the necessity arise, the Auditor reserves the right to rearrange prize money so that the first prize winner will receive more than the second, and the second prize winner receive more than the third.
- (4) Matches on coupons incorrectly scheduled, or not commenced, shall be struck off the coupon. In the event of a game being started, and then discontinued for any reason whatsoever, the score as registered at the time the game is terminated, will be accepted as being the same as a full game.
- (5) The Auditor reserves the right to disqualify any coupon for what, in his opinion, is a good and sufficient reason, and it is a distinct condition of entry that the Auditor's decision shall be accepted as final and legally binding in all matters relating to this competition.
- (6) In making coupon, place cross in column provided; denote whether you think the HOME team will score MORE, LESS or the SAME number of goals as in the corresponding game last season.

- (7) MORE GOALS, LESS GOALS, or the SAME NUMBER OF GOALS as in the corresponding game of last year.
- (8) Should the score shown for last year's game be incorrect it will not affect any estimate as the figures will be taken as printed here.
- (9) Entrants must enclose 25c with each coupon, which will entitle them to five weeks' subscription to THE ATHLETIC GUIDE, or 25c, which entitles them to one extra entry coupon and twenty-five weeks' subscription.
- (10) No two prizes will be paid out in any one week to any one subscriber.
- (11) Employees of THE ATHLETIC GUIDE cannot compete.
- (12) Prizes are awarded on the results received by cable on or before 9 a.m. Monday following date of matches.
- (13) No responsibility will be accepted by THE ATHLETIC GUIDE for the loss or non-receipt of any coupon.
- (14) Proof of posting will not be accepted as proof of delivery or receipt.
- (15) Coupons received without name or address will be disqualified.

King Of Greece Is Virtually A Prisoner In The Royal Palace

Paris.—King George of Greece is virtually a prisoner in the palace, says a Belgrade dispatch to the Mail.

The correspondent asserts that the King made strenuous efforts to stop the execution of the cabinet ministers and asked the Jug-Slav and Rumanian ministers to act in favor of the condemned men. As a result, he found himself in conflict with the Gornis Government.

Lausanne.—Friends here of Prince Andrew of Greece, brother of former King Constantine, voted anxiously as to his fate, in view of the revolutionary government's execution of the six former cabinet ministers and army officers.

Prince Andrew is charged with disobeying the orders of the general staff while at the head of a division in Asia Minor, during the conflict with the Turks.

He is interned at Athens under heavy guard, and is not even allowed to receive food sent by his European friends, because of the suspicion that he might in this manner receive secret messages.

MOTHER!

Your Child's Bowels. Need "California Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If congested, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Opposes Cattle-Pool

Calgary Livestock Man Thinks Scheme Is Impracticable

Calgary.—Establishment of a cattle pool by the United Grain Growers Limited, to affect Calgary, Edmonton and Winnipeg, is impracticable and fraught with many difficulties, according to John Reid, Secretary of the Calgary Livestock Exchange.

"I would suggest, in lieu of this scheme, that a local pooling arrangement be made, which would be far more satisfactory," said Mr. Reid. "After all, Calgary is one of the best markets for good live cattle raised in Alberta, and the idea behind the U.G.G. pooling scheme is to secure a better price for cattle."

Alberta Forest Fires

Calgary.—Another forest fire has broken out in Northern Alberta, although the regular reason for forest conflagrations was believed to be put some time ago, according to information received in the city by C. H. Morse, Inspector of Forest Reserves for Alberta.

SUFFERED SO FROM HEART AND NERVES LIFE WAS A BURDEN

MR. A. H. Lee, Bramsville, Ont., writes:—"I am delighted to let you know what I have to say regarding the good 'Milburn's Heart and Nerve Pills' did me.

A short time ago I suffered with heart and nerve trouble, and was so bad I could not sleep, only about two hours each night. My heart was so bad I had spells when driving on the road and would faint away, and neighbors would carry me in from my wagon. I also took these pills in the night and during my daily work on the farm. My nerves were so bad I would jump out of bed, and was then compelled to walk the floor before I could settle down again, but after taking a few boxes of

MILBURN'S HEART AND NERVE PILLS

I can honestly say I am a relieved man. I now feel in the best of health, in fact, the best I've been in for three years, and can do any class of work with pleasure where before life was a burden to me.

Western Mines Can Treble Output

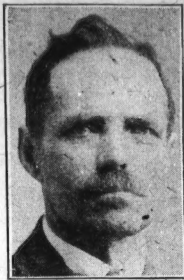

Establishment of Market Only Thing Needed Says Deputy Minister

Ottawa.—The output of Canadian mines in the west can be trebled as soon as the necessary market has been established, according to Dr. Charles Cammell, Deputy Minister of Mines, who has returned from a prolonged tour of western coal fields. Average output at present is 5,500,000 tons a year and as the demand was raised the output can be increased to 12,000,000 to 14,000,000 yearly, he says.

Push Road-on to James Bay

Toronto.—The postponement of the electrification project and the decision to push construction work continuously until a port upon James Bay shall be reached, were the principal decisions reached at a conference between the Trans-Maning and Northern Ontario Railway directors and Premier Durney.

Constantinople.—The official "Anatolian agency asserts that a conspiracy has been discovered among Armenians in Italy to foment an uprising in Constantinople for the purpose of provoking foreign intervention. It is alleged by the agency that Armenians have planned the assassination of high Kemalist officials.

Backaches! try Sloan's

Relieves soreness by warming and circulating blood

Stop those dull, insistent aches, by relieving the painful congestion. Sloan's does this. Without rubbing, it quickly penetrates the sore spot, stimulating the circulation to and through it. Congestion is reduced, soreness allayed, the pain relieved.

Sloan's relieves sore, aching muscles, besides the pains of rheumatism and neuralgia. Breaks up colds in chest. Stops suffering wherever congestion hampers you.

Scrap No More Warships

Great Britain Will Call Halt Until Other Nations Take Action

London.—Great Britain will scrap no more warships under the Washington limitation of arms treaty until the other nations have taken action and scrapped their quota, according to the assurance given a question in the House of Commons by Eyres Monsell, Financial Secretary to the Admiralty. Asked who had ratified the treaty, Commander Monsell replied:

"The treaty of Washington has been ratified by the United States, Japan and this country, but not yet by France or Italy."

"Eight British capital ships rendered useless for war purposes," he added, "already have been sold to ship breaking firms for breaking up. Six more have been rendered incapable of war risks service and two more will have been similarly dealt with by the end of next month."

"So far as is known the United States and Japan have not disposed of ships, except possibly obsolete ships that have been disposed of in ordinary course."

English Farmers Want Assistance

London.—Chambers of agriculture are petitioning the Government to grant loans to farmers for buying their farms. Many old-style land-lords who are now taxed 20 shillings on the pound are compelled to sell their land and the Government is busy to assist the small farmers to buy.

London.—The Duke of Devonshire, Secretary of State for the Colonies, has announced that the Government will introduce a bill for the lifting of the Canadian cattle embargo at the present session of the House of Commons, and will do its utmost to pass it. It is hoped that the question will be finally, definitely and honorably settled before Parliament is prorogued.

The term of the proposed legislation to give effect to the resolution passed some months ago by the House of Commons and the House of Lords, calling for the removal of the embargo, were agreed upon at a conference here recently in which Hon. W. S. Fielding, Hon. Ernest Lapointe, Dr. J. H. Girdle, Deputy Minister of Agriculture, and Hon. Duncan Marshall, Commissioner of Agriculture, represented Canada's interests.

The Original and Only Genuine

RUPTURE KILLS 8,000 ANNUALLY

Eight thousand persons each year are laid down—the fatal rupture being caused "rupture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the signs (swelling of the abdomen and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, applying of whatever name you choose to call it? At least the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as a support than a mere mechanical support. The trussing pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—oxygenation.

But science has found a way, and all true sufferers in the land are invited to make a test right in the privacy of their own homes. The PLAMBO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known. The PLAMBO PAD when adhering closely to the body causes possibly little or shift out of place, therefore cannot chafe or chafe, as a truss—easy to apply—comparatively inexpensive. To be used what you work and what you sleep. No straps, buckles or springs attached.

Learn how to close the hernial opening as nature intended so the rupture CAN'T come down. Send your name and ten cents, coin or stamps, today to PLAMBO CO., 452 Stuart Bldg., St. Louis, Mo., for a simple and instructive information. (C) P. L.

No Treatment for Coughs and Colds Was Ever So Satisfactory

Family Size 75c

All these years Dr. Chase's Syrup of Linseed and Turpentine has held its place in the family medicine chest because there has been nothing to equal it.

It holds the confidence of all as the most certain relief from Croup, Bronchitis, Whooping Cough and Asthma.

Saved from Pneumonia

Mr. W. O. Kidder, R.R. No. 1, Noyan, Que., writes:—"I thank Dr. Chase's Syrup of Linseed and Turpentine is just wonderful for coughs and colds. Two bottles entirely freed my cough after I had tried every other cough medicine I knew of. I feel sure it saved me from having pneumonia, and I cannot recommend it too highly."

Stubborn Cough

Mrs. Jeremiah M. Bigelow, Bigelow, Ont., writes:—"I had a very stubborn cough for over four years, and I tried doctors and almost everything without results. One day an old friend asked me to try Dr. Chase's Syrup of Linseed and Turpentine. I used five bottles, and it worked like magic. I have never been bothered since, and that is some years ago."

Grove Man Gets the Premium

A fine lot of Tamworth hogs were shipped in to an Edmonton packing plant last week which had been raised and fed by that enterprising farmer, Mr. J. W. C. Burns, of Spruce Grove.

These pigs were graded Bacon type, getting the 10 p. c. premium on the whole lot. The pigs averaged 206 lbs. at 6 months and 1 week old, and were a nice even lot.

Mr. Burns states that this class of hog gives no more trouble to raise than the lard breed. In fact, pigs of this breed are very vigorous and are better rustlers. If given half a chance, they will keep free from ailments and thrive well.

Stock Sales on Listing Plan.

In lieu of conducting an auction sale of sheep and swine this fall, the Alberta Provincial Sheep and Swine Breeders' association's compiled listings of purchased stock for sale, and mailed copies of same to farmers living all over northern Alberta. S. J. Stark, secretary of these associations, advises that the results have been all that could be hoped for by the most optimistic; many sales have been consummated—a large number being made through the office of the association, and many more being made direct from the breeders.

No commission was charged by the association on any sales made; on the other hand, great care was taken to select stock which would prove satisfactory to the buyers, who in many cases never saw their purchases until they arrived at the farms.

Preparing Poultry.

The following article on how to kill and prepare poultry for market in order to get the best price, should prove interesting:

Let them fast 24 hours; several hours after last feed allow them all the water they can drink.

Bleeding—Fasten a piece of stout cord to the ceiling and attach to the end a piece of iron. Hang birds on this line by simply tying the cord one wrap around the legs, pass iron over and allow it to drop. Bird can be more readily bled while hung. With the left hand grasp the bird by the neck near the head and with the right hand insert the knife as far back in the mouth as possible, then draw it forward with the cutting edge against the side of the head. Reverse the knife and repeat the operation on the other side of the mouth.

Next pierce the brain by passing the knife thru the roof of the mouth towards the top of the head and give it a half turn. Both arteries must be severed in order to insure complete bleeding, and complete bleeding is the only means to prevent the flesh from turning red. The successful piercing of the brain is characterised by a very peculiar flutter throughout the body. To catch the blood stretch a wire tightly across the top of a tomato can and to the centre of your wire attach a two inch wire hook, which is to be hooked into the mouth of the bird, allowing the can to be thus suspended below the head.

Plucking to be done immediately after killing. Remove tail and wing feathers and all short feathers. Then take bird down and pull the pin feathers. Then lay birds singly on board in cool place over night.

Other than Hygienic Reasons

Mr. H. G. Wells, whose new novel, "The Secret Places of the Heart," has caused something of a sensation, is telling a story of an incident that happened at a public dinner.

Mr. Wells was telling his neighbor what he would do to improve the world. The latter listened with attention and approval, but added—

"I think that it is absolutely necessary for health that all water used for drinking and cooking should be boiled."

"You are a doctor, I suppose?" said the novelist.

"No sir," was the reply. "I am in the coal business."

SPECIAL CLUBBING OFFER.

YOU GET THE AMOUNT OF THAT CHEQUE

We have made arrangements with the E. H. Heath Co. Limited who publish the CANADIAN POWER FARMER, whereby we are able to offer that farm magazine together with our own weekly at the same price for both papers.

The CANADIAN POWER FARMER is Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the mechanical side of the farm. Every issue is full of helpful hints and experiences on the operation of all kinds of farm machinery from a washing machine to a tractor. Its editorial staff consists of men thorough familiar with every branch of farming on the practical and theoretical standpoint. Every month the magazine publishes an extensive series of articles. Many of these are short and snappy that are read with interest by farmers.

This offer may be withdrawn at any time. Without doubt your intention to renew for this week, then why not take advantage now. Your subscription to this weekly together with a year's subscription to the CANADIAN POWER FARMER for the same price as the weekly alone. This is where you get the \$1.50. SWEDISH INVENTOR HAS NEW OIL LIGHT

Claims Whiter and Much Cheaper
Light Than Electric Or Gas

Edison enabled us to enjoy the benefits of electric light. Count Welsbach's mantle made it possible to have the incandescent gas light, but it remained for a Swedish engineer named Johnson, now living in Winnipeg, to devise a lamp that would burn ordinary, everyday kerosene oil and produce a light said by the many scientists who have seen it to be whiter than electric. The lamp is as simple to operate as the old style oil lamp, burns without odor, smoke or noise and is proving a sensation where oil light is needed.

Mr. Johnson offers to send a lamp on ten days' free trial and will even give one to the first user in each locality who will help introduce it. A letter addressed to T. R. Johnson, 573 McDermott Ave., Winnipeg, will bring full particulars about this wonderful new lamp. He has an interesting agency offer, too.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day is warm and bright, and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Channel Tunnel Was

Engineer Wanted to Construct Paved
Submarine Road 120 Years Ago

When all other topics of talk fall in England or France there is always the project of the Channel tunnel to fall back upon, after more than a hundred years. It was not, by the way; some Englishman who first proposed the "great bore," so that he could get to Paris without suffering seasickness. The original idea was given by a French engineer, M. Mathieu, who 120 years ago wanted to construct under the Channel a paved submarine road that was to be lighted with oil lamps. This pioneer was a man of courage. But how he would be astonished if he knew that his grand-grand-nephews, despite electricity, steam and other devices that would make his project simple as child's play, are still merely planning the tunnel!

Change of Government in Britain
Creates Loss to Officials

The Lord Chancellor, Lord Birkenhead, is financially the hardest hit of all the members of the cabinet who have to retire from office because Mr. Lloyd George has resigned the Premiership. In becoming an ex-Lord Chancellor he loses 10,000 pounds sterling a year and the handsome suite of apartments which the Lord Chancellor always occupies, rent free, in the House of Lords.

But he does not have to hustle for a living, as is usually the case with an ex-officio holder in Canada. Anyone who has filled the exalted office of Lord Chancellor, for however short a period, is entitled to a pension of 5,000 pounds sterling a year for life if he chooses to claim it.

Ex-Lord Chancellors usually live long to enjoy their pensions. At the present time there are five of them in England, alive and hearty.

The Law Lords are really the equivalent of the Canadian supreme court. They are the highest court of appeal. It is for these services the so-called pensions are paid them.

Remarkable Development of Industry
Is Noted in Recent Years

From being a province importing dairy products prior to the war, Manitoba is now one of the largest exporting provinces in the Dominion, and out of 51,000 farmers there are 26,000 producing and shipping milk and cream. J. H. Evans, Deputy Minister, announces: In 1914 imports of butter into Manitoba amounted to about 70 carloads, and at present there are being exported nearly 100 carloads. In the opinion of Mr. Evans, it is one of the most remarkable developments of a new industry on record.

Presentation to Mrs. Umbach

The regular monthly meeting of the Ladies Aid was held at the home of Mrs. Umbach on Wednesday evening, November 29, with the president Mrs. Lory in chair. After the business was disposed of, the remainder of the evening was spent in finishing some of the useful and fancy articles which will be offered for sale at their Bazar on Saturday, December 9th. Mrs. Umbach then served dainty refreshments, bringing a pleasant meeting to a close. During the proceedings a suitable present was given the hostess from the ladies of the church, this being her birthday.

Bazar on Saturday Next.

The Ladies Aid of the Methodist Church will hold their Bazar at Freifeld's Parlors Sat., Dec. 9. The various booths are: Fancy work—consisting of table runners, centerpieces, cushions, buffet scarves, doyleys, work baskets, etc. The plain sewing booth—children's dresses, nightdresses, pinafores, aprons, knitted articles, etc. The Baby booth—dresses, robes, booties, bonnets, etc. Cookery booth—pies, cakes, buns. Not forgetting the Christmas Well, at 10c and 15c a dip. This corner will be an attraction for the children. Lunch from 11.30 to 2. Tea will be served thruout the afternoon, and an interesting program rendered.

Schrumm-Meredith Wedding.

In Edmonton, on Tuesday, November 21, by the Rev Mr. Turkheim, Miss Liene Schrumm (daughter of Mr. and Mrs. Jacob Schrumm, of Stony Plain) was united in marriage to Mr. A. Meredith, of Golden Spike.

On the return of the happy couple to Stony Plain, a reception was held at the home of the bride's parents. A still larger celebration will be held, probably next week, in Stony Plain, for which invitations will be issued. The young couple have taken up their residence in Stony Plain.

On Monday evening the bride and bridegroom were given a chivari at their home in Stony Plain by a big bunch of the young people. After the music had been played for a short time, the Captain received a handsome sum of money from the couple with which to drink their health.

Hints to Homemakers.

When you have made your first home brew on the kitchen range, just pour a little of it on the sink. If it takes the enamel off, pour it all in the sink. Ladies' Home Journal.
